Targeted Therapies in Lung Cancer: Interactive Patient Webinar (Spanish)

Hosted in Spanish. Interactive half day live event includes leading oncologists discussing current and emerging information, rare mutation break out sessions, patient Q&A session; published online as enduring material

Engagement of Oncology Fellows and Patient Advocates

GRACE Patient Education Ambassadors

Fellows and finishing Fellows are recruited to expand and create new content for the GRACE patient education library based on their specialty. A portion of this program focuses on communication strategies as they enter their practice

Patient Perspectives: Storytelling on Clinical Trials in Cancer Care

Patient Advocates are recruited to create new content for the GRACE patient education library based on their clinical trials journey. This program draws on the importance of storytelling as an educational tool for patients
